Info

Detailed Result

[example.com (192.168.1.1)]

Short Title

Low | CVSS 2.5

This is a short description.

Very Long Title That Should Definitely Wrap Into Multiple Lines Because It Is Extremely Long And Detailed For No Reason Other Than Testing Formatting

Critical | CVSS 9.8

This is a description that is also quite long. It should span multiple lines to test the dynamic height calculation of the colored strip on the left side. If the strip does not match the height of this text, then the test has failed. We want to ensure that it looks professional and clean regardless of how much text is in this box.

Medium Title For Testing

Medium | CVSS 5.5
